Residents of Eatonville, WA

South Pierce Fire & Rescue

Please remember to

Vote on August 6th

No tax increase for SPFR citizens or for the citizens of the Town of Eatonville.

SPFR has been in contract with the Town of Eatonville since 2015.

Because of contracted services, we have been able to have 3 staffed stations.

Contract in place since 2015

Did You Know South Pierce Fire & Rescue and the Town of Eatonville have had a contract for services since 2015. This contract with the Town of Eatonville enabled South Pierce Fire & Rescue to improve services for our citizens as we were able to keep three staffed station crews within those areas to respond to citizens' needs. Annexation will solidify this ability.

Continue Great Service

Annexation of the Town of Eatonville will allow us to maintain the third manned station allowing for continued improvement of service for the entire Fire District.

Better together!

Did You Know South Pierce Fire & Rescue covers over 140 square miles. Additionally, we cover 60 square miles for Advanced Life Support (ALS) and Mutual Aid for Ashford Elbe, Fire District 23. This is one of the largest response areas in Western Washington. Having the third manned station in Eatonville allows for improved services in the southern portion of the Fire District.

Communities Working Together

Did you know Fire Districts are self-sustaining entities? They cannot turn to Pierce County or Washington State to ask for financial assistance. They depend on two primary sources of income throughout the year:

- Citizens' property taxes
- Insurance payments for medical transports, known as transport revenue.

You as Citizens of South Pierce Fire & Rescue fund YOUR Fire District alone. Annexation of the Town of Eatonville will provide additional funding to support services for all citizens.

No increase in taxes!

Did You Know the annexation of the Town of Eatonville will allow South Pierce Fire & Rescue to continue great service with no additional cost to current citizens of the South Pierce Fire & Rescue service area.

Stable Funding
